

Clean Up

BIOHAZARD ABSORBENT

for **Blood - Urine - Vomit**

Information Sheet

-  was designed to reduce time, cost, labor, and odors, involving bodily fluid accidents.
- The technology behind *Clean Up* is new and environmentally proactive.

The following is a list of features for :

1. *Clean Up* will **absorb** both liquids and oils. A new ceramic process allows the product to remove over 10 times its weight.
2. *Clean Up* will **solidify** the liquid waste. This means that the waste is not only absorbed but is now dry enough to be easily swept & collected.
3. *Clean Up* will **encapsulate odors**. When *Clean Up* becomes wet, a natural protein based agent will capture offensive gases and not allow them to become airborne.
4. *Clean Up* will **clean** the contaminated surface. Once the body fluids are removed, additional product can be applied to clean down into porous surfaces.

 is a new environmentally proactive absorbent that stands alone based on performance, price, and convenience.
